WHO ARE WE?

Founded in 2013, BBM Healthcare has extended its service to healthcare providers, offering end to end software solutions. We are a team of qualified Biomedical Engineers who have an understanding of the healthcare domain, analyze your business needs and deliver the best of all solutions. Serious efforts are being taken in providing excellent after sale support to our customers.

OUR TEAM

We have employed a team of painstaking personnel who have wide expertise in the healthcare field. Our skilled developers designed MEDSKY to incorporate the requirements of each individual medical institution. Our prime focus on maintaining quality in our products have established ourselves as valued firm among our clients.
